

Bioconductor Course in Ethiopia

Overview:

The Bio and Emerging Technology Institute (BETin), in collaboration with the International Institute for Tropical Agriculture (IITA) and the University of Limerick, is offering a week-long training course on Bioconductor for researchers beginning their journey in bioinformatics and computational biology. Participants will gain hands-on experience in genomic data analysis, from foundational training in R and Bioconductor to advanced RNA-seq workflows.

Key Details:

- **Dates:** August 25 –29, 2025
- **Location:** Bio & Emerging Technology Institute (BETin), Addis Ababa, Ethiopia
- **Cost:** Free (participants cover their own travel and accommodation)
- **Application Deadline:** Rolling admissions starting August 08, 2025

Hands-on Training:

- ✓ R and R Studio
- ✓ Bioconductor for RNA-Seq Analysis
